About Us

Blueinfy – A cybersecurity leader known for delivering tailor-made customer focused services that evolve with technology

20

Years of Work Experience

[\[image: image\]](#)

About Us

With human intelligence driven reviews, zero false positives, and years of expertise, we assess millions of code lines and thousands of applications annually.

[\[image: image\]](#)

Leadership & Team

A hands-on leadership team with over 100 years of combined experience brings the perfect balance of customer delivery, technology research, and team guidance for quality services. Quality

results with securing client assets remain at the heart of our focus, acting as an extended arm for our clients.

[\[image: image\]](#)

Research & Technology

Research remains our core, from publishing leading security books to pioneering vulnerabilities and releasing tools over the years in the areas of DAST, SAST, Mobile, ServerLess, HTML5, and AI. Our in-house technologies enable efficient client delivery and quality controlled reviews.

[\[image: image\]](#)

Global Clientele

With clients across continents, including Fortune 100 companies and leading security firms worldwide, we build long-term relationships averaging 5+ years through collaboration, tailored services, managed programs, and a strong focus on accountability and client needs.

Our services

Comprehensive Cybersecurity Services

[View All Services](#)

[\[image: image\]](#)

Penetration Testing

Our Penetration Testing Service delivers a comprehensive, human-intelligence-driven assessment that goes far beyond automated scanning. An actionable report with appropriate risk/impact assessments....

our specialties

Where Human Intelligence meets Application Security Excellence to Secure Application Assets

Our strengths lie in human intelligence, decades of leadership, pioneering research, and in-house technologies enabling precise, efficient, and scalable security assessments.

[\[image: image\]](#)

Human-Intelligence Driven Testing

Human intelligence drives our testing, ensuring context and logic surpass what automated scans alone can achieve.

[\[image: image\]](#)

Focus on Delivery

We act as developers' trusted partner with quick responses, clear documentation, risk insights, and periodic management reporting.

[\[image: image\]](#)

Meaningful Reporting

We deliver zero false positives, developer-ready reports with actionable insights to understand, reproduce, and remediate vulnerabilities efficiently

[\[image: image\]](#)

End-to-End Solution

From initial risk assessments to ongoing protection with client specific tailor-made solutions.

Research & Technology

Combining Research Excellence with Proprietary Technologies to deliver highest quality Security Services.

[\[image: image\]](#)

[\[image: image\]](#)

Technologies

Internal innovations drive precision, scalability, and efficiency, ensuring tailored solutions that exceed client security expectations.
